# **EQUIPMENT & INFRASTRUCTURE**

Regenerative Stewardship Curriculum: Develop

# REGENERATIVE STEWARD COURSE PLAN

# Overview

## **PURPOSE**

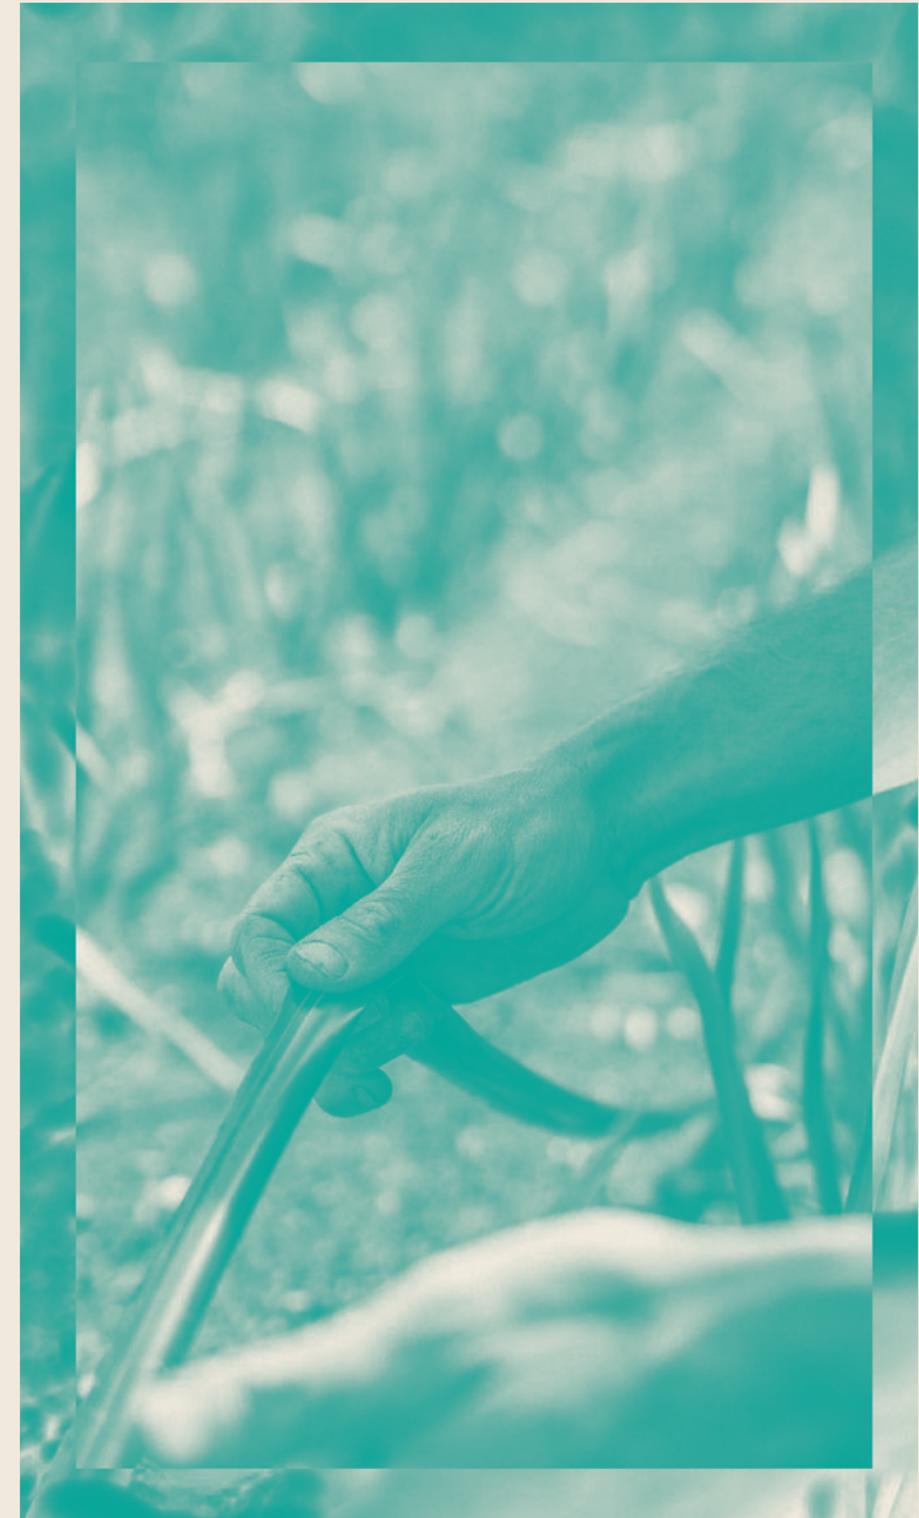

This tool can be used to create and categorize a list of the steward's equipment and infrastructure.

## **PREP ITEMS**

None.

## **TIMING**

Prior to or following a land walk.

# Overview

## **DELIVERY**

Spreadsheet or simple list gathered by the planner.

## **OUTCOME**

A priority list of equipment, categorized by what needs to be upgraded or added to the inventory to help steward improve soil health.

## **STAFF**

Steward.

# Exercise

List the crucial pieces of equipment that you could not farm without (eg. tine weeder, polywire fence, drill, atv, horse, grain storage).

Equipment/Infrastructure (Make, Model if machinery)	When and for what do you use this tool?	Condition (good, fair, poor)	Row spacing (inches) (if applicable)

# Exercise

List the pieces of equipment/infrastructure you wish you had.

Desired Equipment/Infrastructure (Make, Model if machinery)	How would you use this tool to help you and your farm?	Cost estimate

# The End

Continue exploring tools for  
the second phase of our  
**Regenerative Stewardship  
Curriculum, Develop, [here.](#)**
